RETRACTABLE FOLDING AWNING

RETRACTABLE FOLDING AWNING

is designed especially for winter garden, shopping centers, shops, cafes, fast-food area, hotels compartments, resorts, bakeries, and offices .

All seasons are suitable and stainless, unbreakable.

Does not affect the architectural image in the outdoors.

Our retractable awning products produce from aluminum profiles.

The LED lights in the system and the system are controlled by the remote control. Led lights are hidden in aluminum profiles.

There are weather channels at the front of the product. They can withstand winds in addition, these fabric awnings are fire rated and completely waterproof, and they are also resistant to moisture, dirt, fungus, mould, and high temperatures.

The fabric will not bag or shrink, and it is very easy to keep clean. We use stainless bolts and adapters. Awning retraction with constant speed and the sunlight can be adjusted as desired.
